WIMPPING POST.

The papers have begun to agitate The question of the revival of the whipping-post as a propor punishment for the smaller crimes that now have no punishments which seems to meet the requirements. But the tender hearted cynic immediately raise the ery of "berbucous," "brutal," etc., and affect to be mamonably shocked at the bare idea of such a punishment. Delaware stands alone of all the States, in this matter, and polty laroony thieves and other little offenders receive thour due on their baro back. What a good way this would be to deal with the Mongolians who are so prone to "borrow" chickens, and do other small things, We have known of enses where a Chinaman, who has been too lazy to work, go steal something in broad daylight before several witnesses in order that he may be sent to jail for thirty or sixty days and have his lodgings and boald found. They have no idea of the disgrace of the thing. In such in tances, and they are not isolated, imprisonment is more than a faildre. But apply the ent-'o-nine-tails to thou bare backs; not the blood to flowing freely and you will soon find a wonderful improvement in the morality of the people. We can think of no botter way to deal with the hoodlum than this. The time for sickly sentimentalism has passed and vigorous logod now evidence has at least means should be used to meet such

offences.

This is the oldest city in the world Juving been founded by the grandson of Nosh. While other cities have rison and fallen. Damaseus has held its own, reather advancing or retrograding, and to-day it is substantially the same that it was thousands of years ago. Now it is afflicted by that fearful disease, cholora. We give the following brief history

of this antiquated place: Damasous is a city in Syria, and the largest in Asiatic Turkey. It is unrivaled for the beauty and lux-miance of its surroundings, though the city itself is not in keeping with the tinted foliage, charming gardens and blomming oreignds which, at the appropriate seasons, are characteris-tic of the country. The streets are narrow, dingy and decayed. This narrow, dingy and decayed. This comes of the fact doubtiess that it is the most ancient city in the world. Its foundation is attributed to Uz, the great-grandson of Noah, but whether it dates so far back or not, it is cortain that it was a place of consequence in the days of Abraham. It has passed under many dynasties, but through all of the varying scenes of governmental chringe it has always roundined measurably prosperous. Its total population is estimated at 150,-000, of whom 130,600 Mohammedans,

15,000 Christians and 5,000 Jews.

Anoring Body Ricovindo.-The body of Becketond, a victim of the Into disaster in the Consolidated mino, was discovered yesterday morning about 1 o'clock. THE NATHAN MUR-Recent disclosures before a committee of the New York Legislature charged with the investigation of the

police affairs of the metropolis have revived an interest in the celebrated Nathan murder in 1870. A policeman has turned up who gives testi-mony tending to implicate Washing-ton Nathan, the sen of the murdered man. Two of Nathan's sons were in the house at the time the marder was perpetrated, but they occupied re-mote spartments and claimed to have heard nothing unusual during the night. The elder Nathan was brained with a har of tron, and the premises gave evidence of a desperate strug-gle. The safe was blown open and its contents appropriated. A check partly filled out in the handwriting of the murdered man was found on the desk. At 6 o'clock in the moining the two sens gave the slarm by rushing to the door and shouting muder. Large rewards were offored and strennous efforts made to obtain a clue to the murderer. It will be remembered that persons in various parts of the country at different times claimed the honor of having committed the bloody deed. One of these appeared in San Fran-gisco, and later taken to New York. These are in brief the circumstances of this remarkable case as we now recall them. The new light thrown on the subject by the policeman, to which we have referred, is to the effect that one or both of the Nathan boys procured the murder of their inther, and afterward, to conceal all times of the crime, entered into a conspiracy with the leading police officers of the city. It is further chained that the real murderer, one Michael Ryan, was once in the custody of the proper authorities, who released him without duly investigating his case, which amounted to almost a certainty of guilt. All of these things are denied, of course, but the records show that there was a man agreeted manual Michael Byan

given rise to grave suspicions, and we shall now expect the Nathan murder to have quother run in the press of the country.—Sentinel, 8th. I was the same with BONANZA, -- A vein of ore has been struck near Palisade, Neyada, which bids fair to rival anything on the Comstock Lodo. A party of gantlemen, of whom I. I. Hogle is prominent has visited the spot, and have brought in a number of specimens which, under assay of fire and acid, have indicated surprising returns. The assayer of Eureka pronounced it \$700 per ton. In any event it is a big thing, and some specimens containing gold were worth \$4,500 per

THE STATE FAIR.-Stock owners intonding to exhibit animals at the State Fair at Reno, were in doubt as to the matter of having them shipped there and returned free of charge. James Manning of Winnemucea, wrote the President of the society, and received the following reply, which sottles the question definitely:

Nevada State Agricultural, Mining and Mechanical Society, Rone, Nev., July 31st, 1875—Jumes Manning, Dear Sir: The Central Pacific and Virginia and Truckeo Enilroad companies will transport all animals and articles for exhibition at the State Fair by exhibitors in Novada over their reads free of charge. Freights being paid upon them to the Pair, will be returned upon the reshipment by the same owner, and exhibition of cortificate from the Secretary, that the same have been exhibited.

Any further information you need, you can get at the freight office at your station. We shall issue certificates to all exhibitors, and on these certificates freight money will be refunded and the control of the cont be refunded, and the article or animal reshipped free to the point whence it came. Yours truly, whence it came. Yours truly, B. F. LEWER, President.

THE NEW DIMECTORY .-- John D. Bothel, publisher of the directory of Storey, Lyon, Ormsby and Washoo counties, arrived from San Francisco. and has the books ready for delivery. The new directory is a well printed and substantially bound volume of 350 pages, and beside the names and residences of inhabitants, contains much valuable information in regard to the mines and mills, water works and other important enterprises. It is also prefaced by an interesting sketch of "Washoe," and the early history and settlement of the country. The work is thorough and complete in all its details, and supplies a want that has been seriously needed for the last year, by all business men in the community.

M. E. Chungu.-This society have ordered a new bell from the East, and expect it will be here in time to be put into place before the Conference mosts, which will be on the 2nd of September. The new bell weighs 1,000 pounds and will bon fine sounding one, as it is made of the best quality of boll metal. They also proposo to make many other inprovements, which will add much to the place. Bishop Peck is now in Oregon, but will be here in time to hold the Conference. He will not be able to stry long as he will hold the California session of Conference about the middle of September, but he will do excellent service while hero.
